

Perforated Aluminium Security Screens

Discover the latest innovation in home security screens!

Xceed perforated aluminium screens are a modern replacement for dated diamond grilles and a less expensive alternative to the premium woven stainless steel mesh.

Backed by a 7 year warranty, Xceed perforated screens are built to last. The perforated aluminium panels are extremely durable, corrosion resistant and energy smart to boot! The screens act as a sunshade for your windows by reducing the heat loading of the hot summer sun.

The quality of Xceed is proven with screens surpassing Australian Standards as a security door when fitted with a triple lock.

Xceed security screens can be used in a variety of applications, including:

- Security Doors
- Security Windows
- Patio Enclosures
- Privacy Screens

7 Year
Warranty!

More attractive than a diamond grille but just as affordable

Before - Home with dated diamond grilles

After - Home fitted with Xceed perforated aluminium screens

Technical Information

- Xceed Perforated Screens use 1.6mm hardened aluminium sheet
- Hole aperture of 2.2mm
- Complies with all relevant Australian Standards
- Australian Patented fixing method providing unsurpassed strength and durability
