Do you have the confidence to smile?

What is QuickSmile?

Quick Smile is an easy and painless way to get that Hollywood smile makeover; unlike veneers, QuickSmile doesn't require drills, injections, adhesives, or adjustments to your natural teeth. QuickSmile not only straightens and closes gaps but it also whitens your smile. This makes QuickSmile the obvious choice to give you back the confidence to smile.

QuickSmile is the best choice for:

- Stained teeth
- Overlapped teeth
- Crooked or chipped teeth
- Gaps or missing teeth
- Anyone wanting to replace an old removable partial denture
- Anyone wanting a non-invasive, non-expensive beautiful Hollywood smile

Frequently Asked Questions

Q: Is QuickSmile painful? Will I need injections?

A: No, unlike crowns or veneers, QuickSmile does not require any drilling or cutting of your natural teeth.

Q: How long will QuickSmile take to be made?

A: Excluding the time spent in appointments, QuickSmile should be completed within 2-3 weeks.

Q: I have a big gap between my front teeth, will QuickSmile fix this?

A: Yes, this gap can be fixed, so can missing or chipped teeth.

Q: Will QuickSmile make my smile whiter?

A: Yes, quick smile will make any smile whiter and brighter than ever before.

Q: Will I be able to eat using my QuickSmile?

A: Yes, you will be able to eat while wearing your QuickSmile, just try and avoid foods that may stain such as Cola and Coffee; however, with regular cleaning this shouldn't be a problem.

Q: Is QuickSmile Removable?

A: Yes, QuickSmile is removable because of the unique material that allows the QuickSmile to "Clip" over your natural teeth.
